WALK OFF THE EARTH – MIKE'S SONG (LYRIC VIDEO)

Transcribed by: The SMSIT Accessible Media Department

Love is like the wind, you know
Where it blows your heart will follow
Through miles and miles of open road
The one you choose can take you home

So goodbye, dry your eyes, it'll be fine
God only knows that I get by on you
It's all I can do

Hey, I know you'll always be with me
But I can't shake the heartache
Even if the day don't break
It's gonna be okay

Yeah, I know
Hey, it's gonna be okay

Who knows what the future holds
And what will be is all unknown
Just take my hand away we'll go
Don't look back and don't let go tonight

Close your eyes, it'll be fine
God only knows that I get by on you
It's all I can do

Hey, I know you'll always be with me
But I can't shake the heartache
Even if the day don't break
It's gonna be okay

Yeah, I know
Hey, it's gonna be okay
Yeah, I know
It's gonna be okay

Time will mend the space between
The words you sing and what they mean
Of all the places we have seen
This one makes no sense to me
Tonight, close your eyes
It'll be fine
God only knows that I get by on you

Yeah, I know
Hey, it's gonna be okay
Yeah, I know
Yeah, I know it's gonna be okay

I know you'll always be with me
But I can't shake the heartache
Even if the day don't break
It's gonna be okay
