

Lisa James

Pharmacy Assistant, 1977

President & CEO, Environmental Advisory Group

James is a trailblazer who has made a major impact on environmental sustainability by working with pharmaceutical companies, pharmacies and hospitals to find efficiencies in packaging design and waste. A pioneer in her field, James is at the forefront of the national and provincial movements for the safe disposal of medicines. She is also a leading expert in helping pharmaceutical companies reduce their environmental footprint and achieve compliance targets. James is the founder and lifetime honorary member of the Canadian Association of Pharmacy Technicians.
