

Andy Kikites

**Civil Engineering Technician, 1998; Civil Engineering Technology, 1999
Vice President (A), Metrolinx**

Andy Kikites is an internationally recognized expert in the art and science of bridge engineering, working with noted international planners and architects on some of the largest projects in the world, including Palm Island, Dubai; Sir BaniYas Island, Abu Dhabi; Tappan Zee Bridge in New York; and previously as director for the largest transit program in the world, the \$40B RER program for Metrolinx. Kikites has become a highly respected role model to a new generation of engineering students, and has advanced the industry through design innovation. He has authored research papers on innovative materials, structural systems, and bridge rehabilitation and preservation techniques.
