**Mechanical (Manufacturing) Engineering Technology, 1990;  
Business Management, 1999**

**Chair and Chief Executive Officer, Soheil Mosun Limited**

Darius Mosun is Chair and CEO of Soheil Mosun Limited (SML), one of the world's leading custom architectural fabricators. Working with renowned architects and designers, they are dedicated to one of the most demanding tasks in the commercial world - turning their concepts into reality. Utilizing industry professionals, including toolmakers, machinists, welders, model makers, etching artists and industrial designers, SML has contributed to projects like the window frames for the Peace Tower and the Library of Parliament in Ottawa, ornate work at the Baha'i Temple in Haifa, Israel, and the elevator interiors of the Central Market towers in Abu Dhabi.
