

RACCOON

Raccoons love many different kinds of food. They like to eat crayfish, insects, berries, nuts, bird eggs, earthworms, and more!

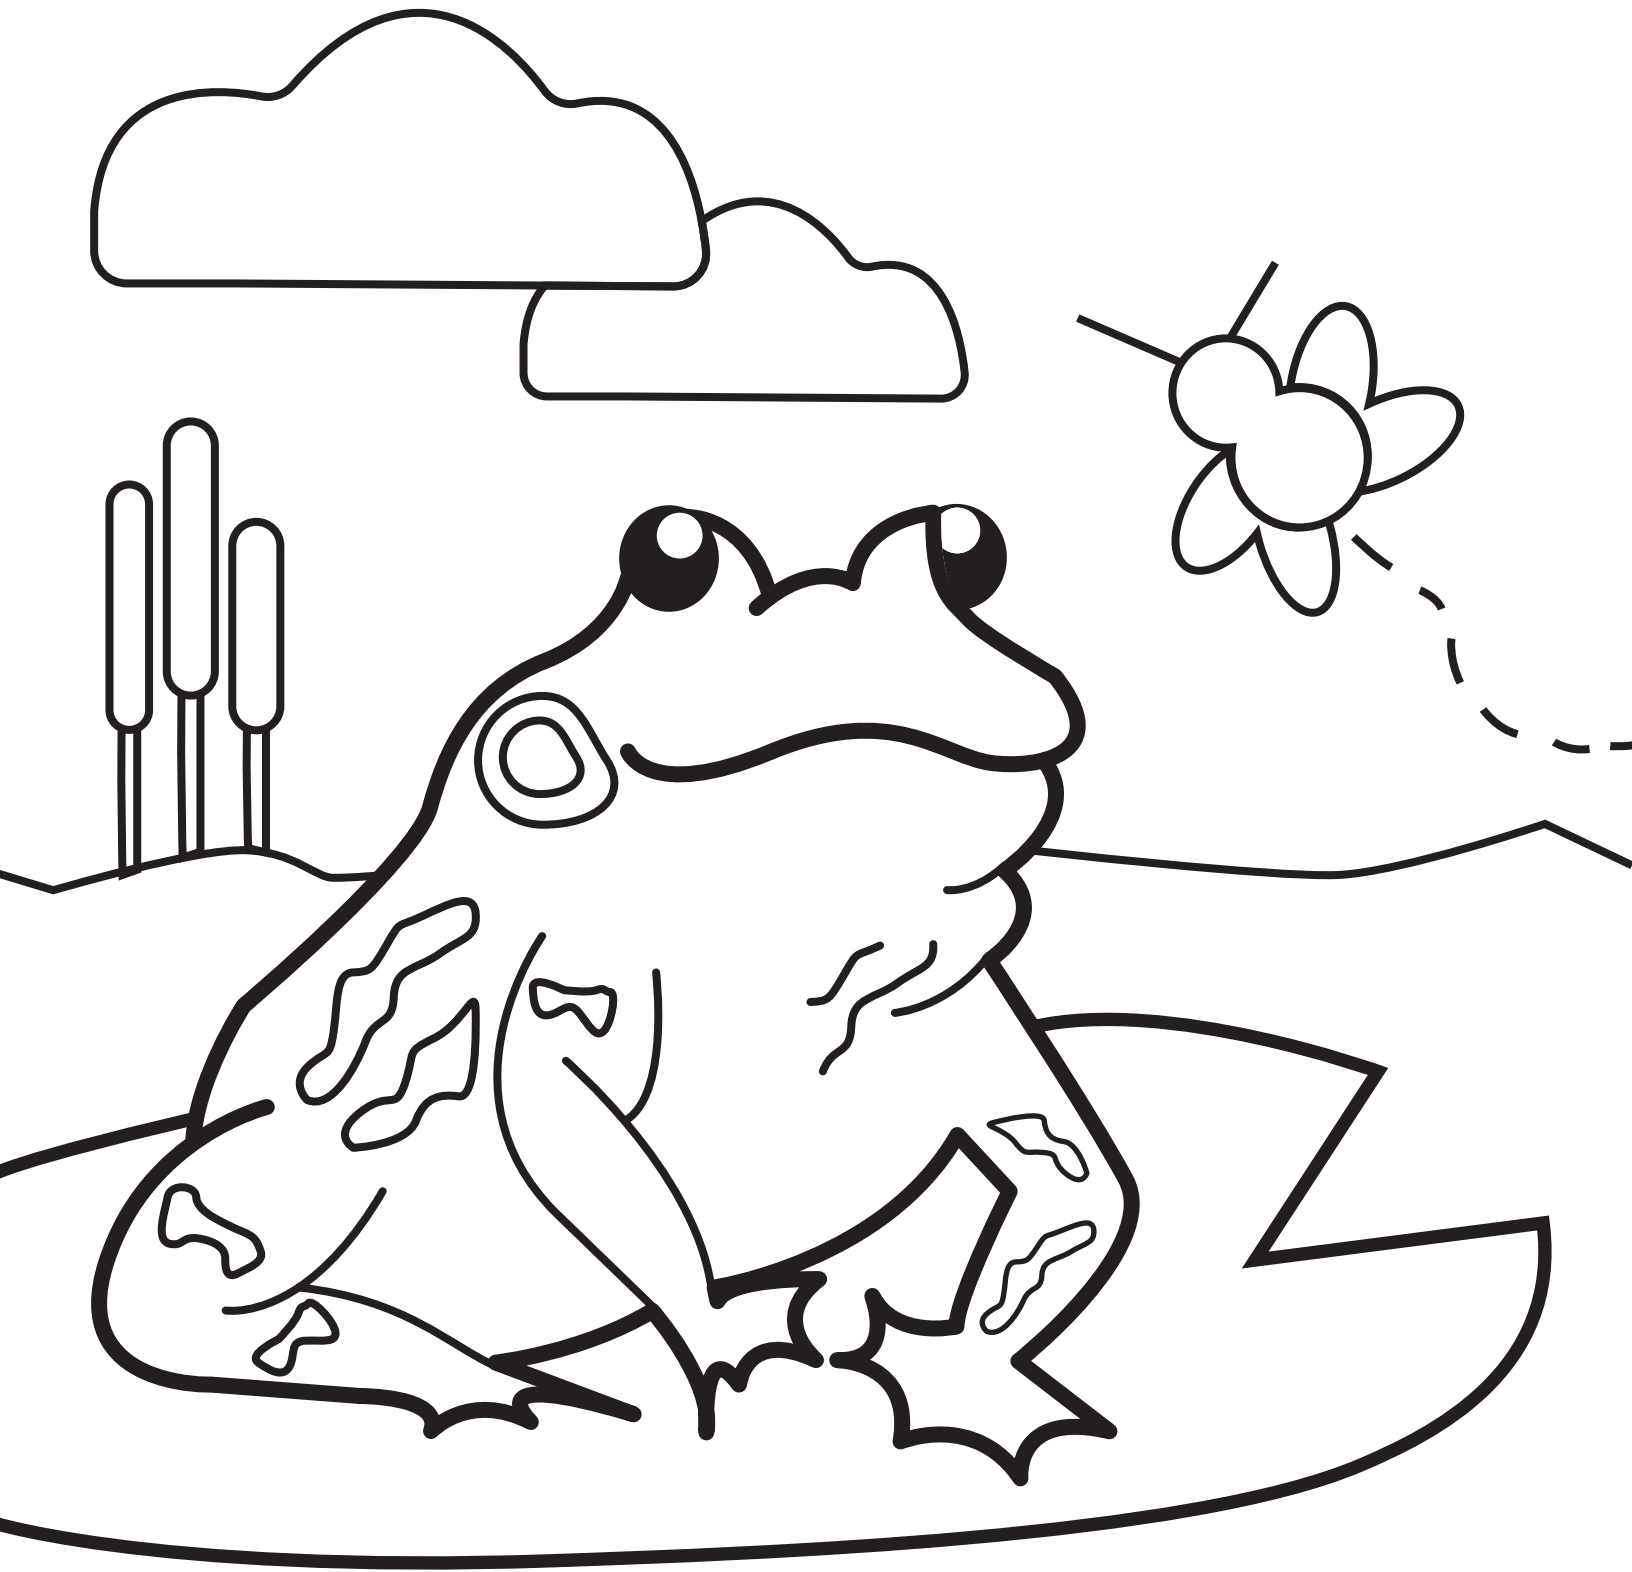

BLACK-CAPPED CHICKADEE

Black-capped chickadees are often seen at bird feeders. Sometimes these brave little birds will eat sunflower seeds right out of your hand!

GREY SQUIRREL

Grey squirrels actually come in many different colours. They can be grey, reddish-brown, black, and even pure white!

GREEN FROG

You don't have to see a green frog to know it's there. They often make a loud call that sounds like someone plucked on a banjo string!
