GET CREATING WITH ARDUINO: WORKSHOP

Interested in learning more about how to use technology to make your creations come to life? Want to find out about coding and the Internet of Things but didn't know where to start? This workshop will help you learn about the Arduino microcontroller and get you started on a project or two that you can continue or expand on from home.

The workshop will be led by one of our Skills competition winners and Humber graduate, Avery Bird.

Saturday January 27, 2018
9:00am-12:00pm
D224J, North Campus
