If you answer yes to Question 1, 2, or 3, do not visit Humber College at this time. Please contact covidreporting@humber.ca

1. Have you tested positive (RAT or PCR) for COVID-19, or do you have any of the following symptoms that are new or worsening, and not related to an existing health condition?

- Fever (37.8 C or higher) and/or chills
- Cough or barking cough (croup)
- Shortness of breath
- Decrease or loss of taste or smell
- Muscle aches/joint pain
- Extreme tiredness
- Sore throat
- Runny or stuffy/congested nose
- Headache
- Nausea, vomiting and/or diarrhea

Select “No” if all of these apply: (a) you have completed your 5-day isolation period or you tested negative on a COVID-19 PCR test or rapid molecular test or two rapid antigen tests taken 24 to 48 hours apart, and (b) you do not have a fever, and (c) your symptoms have been improving for 24 hours (48 hours if nausea, vomiting, and/or diarrhea).

2. Has a doctor, health-care provider, public health unit, or Canadian Border Services Agency told you that you should currently be isolating (staying at home)?

3. Do you live with someone who is currently required to isolate because of a confirmed or presumed case of COVID-19?

Select “No” if (a) you are 18 or older and have received a booster dose, or (b) are less than 18 and are fully vaccinated, or (c) have completed your isolation after testing positive in the last 90 days, or (d) if you don’t live with someone who is positive.

If Yes to 1, 2, or 3 – Do not enter and contact Covidreporting@humber.ca
