## List of Participating Employers:

407 ETR Concession Company Ltd

Aecon Group Inc.

Ampere Limited

Apotex

Aztec Electrical Supply

Celestica

Cif Lab Solutions

Construction Demathieu & Bard

First Onsite Restoration

Flynn Group of Companies

Global Furniture Group

Hamilton Plastic Systems Inc.

Hatch

Honda of Canada Mfg.

HTS Engineering

Innovative Thermal Solutions

Linamar

Magna International

Magna: Maple Stamping

Magna: Modatek Systems

Matcor Metal Fabrication

Multimatic Advanced Manufacturing Technologies

Nedco Energy Solutions

OACETT

Ozz Electric Inc.

Polytainers

PreCon Precast Limited

Questica

S&C Electric Canada Ltd

Shared Services Canada (Federal Government)

Standard Fencing

Symtech Innovations Ltd.

Tech Mahindra Ltd.

The Miller Group

Yaskawa Canada Inc.

# CAREER & NETWORKING EVENTS

## MAKE A GOOD IMPRESSION!

A Career Fair is an opportunity to network with people from companies in your field of study. It's a great way to develop contacts, as well as learn about employment opportunities, industry trends, and what employers expect from job seekers.

Most employers will have job openings to discuss with you. Not all companies will have jobs for students from all programs, however, they may collect resumes from all students in anticipation of future needs. Employment opportunities develop all the time, so it's important to come prepared to discuss your career interests and make a good impression.

### Event Format. What to expect.

- Each organization will have a table, possibly a display.
- Walk about the room and look for employers you wish to speak with.
- Be prepared to briefly introduce yourself, and ask your questions. Employers will be interested in telling you about job opportunities and what they look for when hiring.

### Set a Goal. What would you like to learn?

- Review the list of companies that are planning to attend.
- Also check [CareerConnect](#), Humber's online job board, to see the current job postings.
- Do some research. Click on the links provided to visit the company websites to learn about their products/services.
- Think of 2 or 3 job or career related questions you have.
- Plan to visit the table of every company if you can. Be creative when you ask your questions. Be open to learning.
- Set realistic expectations: **Not all employers will be hiring from your program, but all employers can talk about factors for workplace success, the "employability skills" they look for when hiring, what's happening in their industry, where growth is occurring, etc.**
- Practice an introduction. Your name, the program you are in, your skills, and your career interests. What is unique about you that will set you apart from your classmates?

### Career Event Etiquette. What to bring? What to wear?

- Bring copies of your resume. How many? Bring more copies than there are employers.
- Bring your e-portfolio or samples of your work, to show the employers what you can do with the skills you have.
- Bring breath mints. Avoid chewing gum in front of an employer.
- Dress is business casual.
- Turn off your cell phone prior to entering the event. Please do not answer your cell phone when you are speaking with an employer.
