Registration opens next week!

3-Part Mini-Series: Gamify Your Course With Digital Escape Rooms

March 10, 17, 24 10:00am - 12:00pm

An escape room is a game in which a team of players cooperatively discovers clues, solves puzzles, and accomplishes tasks in one or more rooms in order to accomplish a specific goal in a limited time. The goal is to escape from the site of the game. In this 3-part miniseries, we will play and explore Digital Escape Rooms, then learn how to use simple tools like Google Forms, Docs and Slides to create an interactive and engaging Digital Escape Room for your students.

PARTICIPATION IN ALL 3 SESSIONS IS HIGHLY RECOMMENDED. We will have the opportunity to create our own digital escape rooms in a collaborative space and with the support of Humber's Educational Technology Specialists. **For more information please click here.**

Episode 4: Integrating Integrity - Embedding Academic Integrity In Your Course

With so much information readily available with a quick "search", academic integrity can be a hot button topic for some faculty. Could it be that the way a course is designed may lead to a better outcome? We discuss strategies to integrate integrity into your course, and how this can affect attitudes in the work place long after students graduate. **Now on Soundcloud, Spotify & iTunes!**

FREE Virtual Lunch & Learn Webinars Series

ETC VIRTUAL LUNCH & LEARN SERIES

Remote Teaching with the Brain in Mind

March 10, 2021, 12pm-1pm
What does brain science have to say about managing the learning context of remote teaching? Discover considerations and practices that we can adopt to optimize learning.

Escape the Ordinary Classroom

March 17, 2021, 11am-12pm
Participants in this session will participate in an online "escape room" activity designed to teach the six essential employability skills (EESs).

Active Partnership with Students in Creation of Open Assessment: Exploring Future Possibilities

March 22, 2021, 11am-12pm
What makes a difference in the way we teach and our students learn? What happens when we let students co-create assessment activities? Join us as we discuss open assessment for higher education.

H5P: Add interactivity to your course

March 30, 2021, 11am-12pm
H5P is a web plugin that enables you to easily create, share and reuse interactive learning objects like interactive videos, drag-and-drop, fill in the blanks, flashcards, presentations, and many more. These objects can then be embedded into a website or a Learning Management System for sharing with your students. In this session, we will explore the H5P Studio platform and create, share and embed some of the interactive content available.

Storytelling in Distance Education

April 6, 2021, 11am-12pm
Best practices in storytelling will be presented along with the technologies available and ways in which to bring these stories to life. Examples of how we have used storytelling will be shown.

### Le storytelling en formation à distance.
(Français)

13 avril 2021, 11am-12pm
Les meilleures pratiques en matière de «storytelling » seront présentées, ainsi que les technologies disponibles et les moyens de donner vie à vos histoires pour capter l'attention de vos apprenants. Des exemples vous seront présentés.

To read more about and to register for the webinars, please visit ETC Events (www.edtechontario.ca/events).
