Subtitle: Andrew and Stephanie are using the Thumbjam app

PF: Stephanie has a similar thing, so Stephanie on the iPad as well. And then Chris has a variety of different sounds he can do. He's going to trigger using, all sorts of loops. Not quite sure what we're doing with these yet —

PF: — this drum kit. So these guys are our, kind of, impact section. Rhythm, which is Chris. And over here, Steven. He's also got a digital drum kit that's going through a lap top. [Steven begins drumming] Wow! And that's it, that's some of our sounds. So we're working on a piece for the True Colours Festival. Looking forward to going to Singapore?

Musicians (all together): Yeah!

PF: Amazing. Say, we've got a little while to go now and we're busy making plans, making music, but we're looking forward to seeing everyone very soon.
