

RO End of Term Wrap Up

January 2022 - May 2022

Some cool developments in the RO this winter...

A new calendar year meant new opportunities to connect with students and partners from virtual events to adding innovative functionality to our web services even as we looked ahead to providing more opportunities to engage in person with our community.

Transfer Services got the ball rolling in January and kept the momentum going all the way into Spring.

Highlight: Virtual Pathways Fair

PPDR and the RO were excited to host the 2nd annual Virtual Pathways Fair on January 18 and 19. Students registered for live information sessions and met with representatives from Humber as well as other institutions in Canada and around the world.

Beyond offering students a chance to learn about the pathways available to them at Humber and at our partner institutions, the Fair continues to be a great opportunity for the Humber community to build relationships with institutions that are sending us students and receiving our graduates.

Revisit the Fair and check out recorded sessions at humber.ca/transferoptions/transfer-out/virtual-pathways-fair.html.

Transfer Stats

50% of all incoming Humber students have some previous education.

39% of incoming Humber students with previous education have studied at a college.

61% of incoming Humber students with previous education have studied at a university.

Did You Know?

The Pathways widget on Humber program pages has been updated to redirect students to the new Pathways module. Students can explore their pathway opportunities by their institution or by choosing a program.

Check out the module here: humber.ca/pathways/explore-pathways.html

"The Power Up Your Credential seminar was a fantastic experience that assisted me in evaluating new career opportunities. I am grateful to the instructors for such in-depth sessions, which inspired me to apply for my second course at Humber... my experience has far exceeded my expectations!"

- Abhinav Sodera, Contest Winner

Power Up Your Credential

The Transfer Services team rocked a wide variety of Power Up Your Credential sessions between February 25 and April 14, 2022. The virtual information series promoted Humber's degrees and graduate certificates to prospective students from other institutions as well as our current students to encourage them to continue their studies with us. This year, we created a landing page and promoted the sessions across Humber's website in various ways including a successful pop-up reminder to register for upcoming sessions.

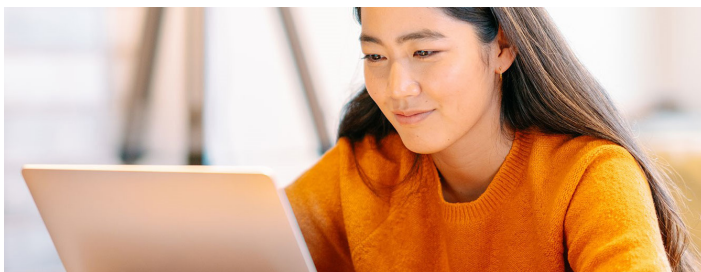

Staff and students can now access these recorded sessions at their leisure: humber.ca/transferoptions/power-up-your-credential/recorded-sessions.html

RO End of Term Wrap Up

January 2022 - May 2022

Did You Know?
Effective April 30,
OCAS increased their
application fee from
\$95 to \$110.

Spring 2022 Virtual Open House

Humber hosted another fantastic Virtual Open House on Saturday, April 23, inviting prospective students to join us for a wide range of info sessions to get to know the college programs and services.

From program-focused sessions hosted by Faculties such as “Choose a Cutting-edge Career in Business” and “Lights, Camera Action: Preparing for Careers in Film and TV” to International and Domestic Admissions and Financial Aid, page views were up from last Spring’s Open House and 91.4% of attendees surveyed said the information received at the event was helpful.

THE REVIEWS ARE IN!

What prospective students are saying about Humber’s Virtual Open House

“This was very informational, and has me even more excited to start at Humber in September.”

“I am very grateful and humbled to have a chance to get enrolled in Humber. I am a domestic student of September 2022 intake in Lakeshore Campus.”

“I’m very excited to attend Humber next year!”

We look forward to offering an on-campus experience for the upcoming Fall Open House and can’t wait to share more about our in-person Experience Humber event held on June 4 at both the North and Lakeshore campuses.

New in Admissions

APPLY NOW >

To kick off the new year, Humber launched a college-branded application in collaboration with OCAS. From our Humber program page, prospective students can see an “Apply Now” option linking to a landing page to start an application. While the application still resides with ontariocolleges.ca, this new functionality allows for a more seamless process for our future students, helping them focus on their program choices as offered at Humber.

Visit a [program page](#) to check it out!

Get Ready for Fall

May 1 was the deadline for domestic applicants to confirm their offer for the fall term. Applications from mid-April and beyond will have a confirmation due date associated with their offer date as our Admissions team continues to fill program seats across the College.

Now that they have confirmed their offer, students will need to pay their tuition deposit and pay or arrange to pay the full balance of their tuition fees before registering for classes. New for Fall 2022, students who sign up for a payment plan will need to pay the \$35 administrative fee charged directly by Flywire, the payment plan management provider.

Find out more about student fees and payment options by exploring the new layout at humber.ca/fees.

Up Next: Spring Convocation

This Spring we’ll be back on-site at the Toronto Congress Centre to celebrate Fall 2021 and Winter 2022 grads with in-person ceremonies from June 14 to 17. For grads who can’t make it in person, we’ll be hosting an in-person photo opportunity on campus. The event will be held in August, stay tuned for more details.
