## Inventory Inspection

Each student must complete their room Inventory Inspection **within 48 hours of checking in**. To complete the Inventory Inspection, go to the **Residence Portal**. You must indicate the condition of the items in your room on this inspection. Your Inventory Inspection is only for comparison purposes when you move out, and is not reviewed for immediate issues or repairs. At move out you will be charged for any damages, cleaning or missing items which were not indicated on your Inventory Inspection upon move in.

## Room Repairs

To report any maintenance issues, room repair requirements, or safety issues, you **MUST** complete a work order through the **Residence Portal** or contact the Front Desk for assistance. Any urgent matters, such as water leaks, should be reported immediately to avoid damage.

## Decorating Your Room

Remember that you will be held responsible for any damages to your room or suite. Do not make permanent changes, such as painting, installing tiles or permanent carpeting, putting nails in the walls or using duct tape for posters. Use painter's tape **ONLY** to hang your posters and photos, and remove gently to avoid damage to the paint in your room. We suggest using wall decals that cling to the wall without leaving adhesive residue on the wall. Residents are also not permitted to post or paint anything on exterior windows or doors. Each room has a bulletin board outside the room to post materials.

As stated in the Code of Student Community Standards, no postings will be permitted on hallway and common area walls in residence. Please keep in mind that your personal bulletin board postings must be appropriate for community living standards and the comfort level of all residents.
