

Humber's AODA Customer Service Standards Training has been revised

The Accessibility for Ontarians with Disabilities Act (AODA) underwent recent changes as of July 1, 2016. As a result, Humber was required to update its training on the Customer Service Standards. The Centre is happy to report that the modules for faculty, administrative and support staff have all been updated and are now available to you for completion.

Please note: All employees who have completed the Customer Service Standards online training before January, 2016 are required to complete the revised Customer Service Standards module that can be accessed at:

<http://hrs.humber.ca/human-rights-equity-diversity/training-programs/aoda-customer-service-standards-training.html>

Thank you for ensuring Humber's compliance with the AODA
