

# TEACH YOUR STUDENTS HOW TO GIVE A PRESENTATION

Most students will have to give presentations not only in school, but also when they enter the workforce. So why not offer them some valuable tips and tools for giving effective presentations? For this workshop, bring one of your own PowerPoint presentations on a USB, or prepare to pull it up on the Humber system. We'll work on:

- What to say when you introduce your presentation
- Where to stand and when to move
- Using the hand held remote
- Opening up your voice so all can hear you

You'll practice for a few minutes, and then try teaching what you learned to someone else in the group, with professional guidance.
