

PC

COMMUNITY OF PRACTICE

The PC Community of Practice events are designed to enhance communication, networking and sharing within our group of Program Coordinators. Each event will provide a forum for PCs to discuss current issues, share ideas and best practices, and generally share the incredibly rich and diverse body of knowledge within our community. Our winter 2017 meetings are an excellent opportunity for all PCs to meet Carol Appleby, our new Director of Professional Learning, Centre for Teaching and Learning.
