Join us for a National Skills for Success Student Hackathon

Work with students across Canada to improve an innovative online tool designed to support career pathways and workforce success.

- **Boost Your Skills:** Gain hands-on experience in digital product design and problem-solving in a collaborative environment.
- **Enhance Your Resume:** Stand out to future employers with enhanced skills and real-world project experience.
- **Certificate of Participation:** Receive a certificate to bolster your professional portfolio.

March 22-23, 2025

On Campus | Connected Virtually

Paid Participation ($200) + Free Meals

Open to Students & Recent Grads

Eligibility:

Full-time/part-time students or recent grads (within 12 months).

Enthusiasm for human-centered design is a plus – no prior experience needed.

Register Now!

Space is limited.
