

WEBINARS

The Educational Technology Committee (ETC) is hosting a series of **FREE Virtual Lunch & Learn Webinars!**

Empowering Faculty and Student Content Creation with Adobe Spark

Learn how you and your students can easily transform content creation using the Adobe Spark platform by generating stunning social media graphics, posters, Interactive websites and videos. Faculty attending the workshop who do not already have an Adobe ID should register for one prior to the workshop by going to: <https://helpx.adobe.com/ca/manage-account/using/create-update-adobe-id.html>

October 27th, 1 pm

Open Educational Resources (OER): Now is a great time for these!

Join Jenni Hayman, Tricia Bonner, and Paula Demacio to learn more about open educational resource (OER) possibilities to empower your Ontario post-secondary digital practice!

November 4th, 12 pm

Integrating Virtual Reality in Higher Education

Immersive virtual reality (iVR) has tremendous potential for experiential learning in higher education. Rob has integrated iVR for patient simulation, explored iVR for teaching empathy and has used social VR for synchronized online learning. Currently, Rob is the Immersive Technology Lead at Georgian College. He will share his lessons learned and how educators might start to explore iVR as a new medium for teaching and learning.

November 12th, 12 pm

Building Accessible Digital Experiences

This Webinar will introduce and demonstrate a host of in-house built, open source, accessibility tools that leverage some of the latest web technologies. Participants will learn how easy it is to make their web content and digital experiences accessible by integrating no-cost, advanced accessible features.

November 18th, 1 pm

Educational video games design: Choose your own adventure games

In this webinar you will learn the basics to design choose your own adventure games. After this seminar, you will have a draft of a game ready to be implemented using PowerPoint and or H5P.

November 25th, 12 pm

Liquid Syllabus: The First Step to Making a Connection and Reducing Student Anxiety

This session will show how three college faculty members implemented a liquid syllabus to help reduce the student anxiety and promote student success. We will share what a liquid syllabus is and how it supports student success. Three examples that were used for Fall 2020 will be shown, challenges and workarounds discussed and the feedback from the students will be shared.

Participants will receive links to sites/resources on how to get started on their own liquid syllabus.
