

# **PARTICIPANTS NEEDED FOR RESEARCH ON HOW YOUNG PEOPLE MAKE DECISIONS ABOUT HOW TO OBTAIN AND CONSUME CANNABIS (MARIJUANA)**

We are a research team led by a Humber College faculty member, and we're looking for volunteers to take part in a study that will ask you how you decide where to obtain and how to consume cannabis. We want to know what factors influence your decisions.

As a participant in this study, you will be asked to take part in a focus group with other Humber students. Your information will be anonymized and your identity will not be known to any faculty or staff members of Humber College. The focus group will be led by a trained Humber student, not a faculty member. We'll only need to talk with you once, and the session will last about 90-120 minutes.

In appreciation for your time, you will receive a meal during the focus group session, and a gift card.

You are eligible to participate if:

- You are between 19 and 24 years of age
- You have consumed cannabis in the last year
- You have obtained cannabis for your own use in the last year
- You are currently a Humber student

For more information about this study, or to volunteer for this study, please contact: [CannabisResearch@Humber.ca](mailto:CannabisResearch@Humber.ca)

**This study has been reviewed by, and received ethics clearance through Humber College's Research Ethics Board, protocol number RP-0297.**
