

Greenfield Research & Innovation (R&I) Fund

FREE Information Session

WEDNESDAY
MARCH 20
12–1 p.m.
MS TEAMS

Researchers! Join us for a free information session to learn more about the Greenfield Research & Innovation (R&I) Fund.

This funding is **open to all sectors** and will **build on applied research (AR)** and **strengthen our regional partnerships** to respond to the health, economic and environmental crises brought about by the COVID-19 pandemic and climate change. College researchers will lead these multi-partnered initiatives in collaboration with the private sector, public sector, or not-for-profit organizations based in Canada, while encouraging partnerships with universities and other colleges.

In association with regional partners, the **Greenfield R&I Fund** will develop impactful programs that engage underrepresented communities in research and provide enhanced training to students and emerging researchers (ER).

Our Facilitators

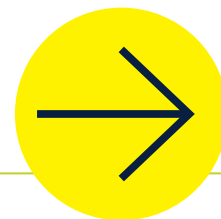

Manivannan Kannan, a Toronto-based Project Manager at ORI, Humber College, possesses six years of diverse experience in project management, data analytics, human resources, and business development. Certified in PMP, CSM, Innovation Management, and Google Data Analytics. He holds a postgraduate in International Business Management & a bachelor's in commerce. With a proven record in managing multi-million-dollar research projects. Manivannan's commitment to excellence, adaptability, and leadership skills make him a valuable facilitator in various domains.

Shyama Patel is a Project Coordinator for the Office of Research and Innovation at Humber College. With a solid foundation as an electrical engineer, she has transitioned her expertise into the realm of project management, where her technical acumen and creative spirit converge.

As a Certified ScrumMaster (CSM) and a Certified Scrum Product Owner (CSPO), she has embraced agile methodologies, infusing a collaborative spirit into every project she touches.
