

The Educational Technology Committee (ETC) is hosting a series of **FREE Virtual Lunch & Learn Webinars!** 

#### **Cool Tools for UDL**

#### September 24, 2019, 12pm-1pm

Is your lunch box full but your UDL tool box empty? This session will help you unpack a few cool tools as we explore the 3 Principles of Universal Design for Learning. We will identify tools to support multiple means of engagement, representation and action and expression.

# Using Spark to Ignite Faculty and Student Creativity

### September 30, 2019, 11am-12pm

Adobe Spark is a free easy-to-use tool that can be used for creating digital stories, websites, posters, promotional materials, presentations, videos and more. This session will demonstrate the three tools in Spark: video, pages, and post, followed by examples of faculty and student created work.

## FlipGrid Skits!

### October 9, 2019, 12pm-1pm

You will be introduced to FlipGrid as a tool to use for assessment. Hear about using FlipGrid to collect peer feedback, practice communication skills, and to mark a group assignment. Learn about the beneficial and unexpected results of trying out this video blog tool in a teaching and assessment context.

# One Small Change to Benefit Learners: Supporting Faculty & Staff to "Level Up"

### October 23, 2019, 12pm-1pm

In 2018, Cambrian College invited faculty and staff to participate in this challenge: "make one small change to a lesson or program to make it more impactful for all learners". Through design creativity and fostering a community of support and sharing, our faculty and staff rose to the challenge. We hope to inspire others to take a similar approach to faculty development!

# **Designing Presentations and Online Lessons** with the Brain in Mind

### November 6, 2019, 12pm-1pm

Let your presentations come to life while reducing the cognitive load on your students and audience members. Learn concepts and tips from cognitive science for designing presentations and online lessons that engage rather than overwhelm.

## Launching a Domain of One's Own Project

#### November 15, 2019, 12pm-1pm

Fleming College is launching a Domain of One's Own (DoOO) project in fall of 2019 where students can take more ownership of their learning. In this webinar, we will give an overview of the DoOO infrastructure, discuss the progress made in launching the project, and discuss the benefits and difficulties that may be faced in taking this approach to student learning.
