

## LANGUAGE CERTIFICATES & COURSES

### PROGRAM OVERVIEW

FLAS Continuous Professional Learning offers students a wide range of online language certificate programs and courses with the flexibility to learn on their own terms and time. We provide classes in four different languages, (American Sign Language, French, Spanish, and Everyday English as a Second Language). In addition, we also provide workshops in Interpreting and Translation. Language skills are a powerful work and business tool, as well as a means of gaining access to other cultures. Our online language courses are enjoyable, rich in cultural content, and provide students with an active learning environment.

Our online language certificate programs and courses allow students the flexibility to plan their studies around busy schedules. Students can begin at any level based on their previous experience with the language, rather than having to start as a beginner. All students will be assessed to ensure proper placement. Lessons are provided in partnership with Rosetta Stone Advantage/Tell Me More.

### INTENSIVE STREAM OPTION

Students can now choose to complete Everyday or Professional English as a Second Language, French, and Spanish certificates through an intensive stream. This allows students to complete the certificates in one year instead of two.

#### ONLINE LANGUAGE CERTIFICATES:

- Everyday & Professional French
- Everyday & Professional Spanish
- Everyday & Professional English

#### COURSES/WORKSHOPS:

- Communicating with the Deaf in Emergency Situation
- Communicating with the Deaf: Working with Young Children
