

Humber's Student Massage Clinic offers appointments to everyone - faculty, staff, students and members of the community with massage therapy students.

Students in Humber's 3-year advanced diploma Massage Therapy program offer this service as part of their on-campus internship, which is a component of the program curriculum.

Treatment Plans

For those who are new to the clinic, a massage therapy student will conduct a patient examination and create a treatment plan specific to your needs. You will be booked for a subsequent visit for the length of time recommended.

Note: The treatment plan may be modified over time as you progress or your massage therapy student determines that changes are required.
