

CCBI & Humber Galleries Fellowship Program

Students currently enrolled in any program at Humber College are eligible to apply for The Centre for Creative Business Innovation (CCBI) and Humber Galleries Fellowship Program.

Fellows will experience working as part of an interdisciplinary team with support from a project lead and creative producer to conceive of and execute a complex creative project that can take many different forms. This work integrated learning experience bridges the gap between academic and professional life and expands avenues into the broader creative ecology.

Over the course of 14 weeks, fellows will learn industry-specific skills and best practices for digital innovation and workflow. They will also be expected to demonstrate adaptability, deal with ambiguity, and build a functional community of collaboration and creation.

As the CCBI is developing a framework for applied research-creation in collaboration with our partners, fellows will be trained to view themselves as researchers, and to understand how the creative process is a form of research.

About Nuit Blanche Fellowship

Humber Galleries and Humber College Lakeshore Campus are pleased to partner with the City of Toronto's annual Nuit Blanche event by establishing the Nuit Blanche Fellowship. Under the supervision and mentorship of Humber staff, a team of multi-disciplinary students are invited to explore their individual talents while working together on the ideation and production of a single and dynamic artistic project inspired by Nuit Blanche's curatorial theme.

Nuit Blanche has had a massive impact on Toronto and grown into one of the largest public art exhibitions in North America. This free and annual overnight event presents opportunities for audiences to explore new neighborhoods and engage with contemporary art in public spaces. With the support of a Creative Producer and Project Lead, students will conceive, plan, and execute a multi-disciplinary project in response to Nuit Blanche's curatorial theme The Space Between Us. These emerging artists, designers, and musicians will gain new perspectives in contemporary art making, while learning about digital interactives and music technology. The Fellowship will also lay the foundation of research-creation by combining investigative studies and skills-based learning with professional development. By the end of the program, they will have collaborated on and produced an artistic project that will be presented as part of this year's Nuit Blanche festival in October 2023.

Qualifications:

- Be a current Humber College student.
- Be in good academic standing.
- Require field placement hours (Work-Integrated Learning) to graduate.
- Preference will be given to students in the third or final year of a Degree OR second or final year of an Advanced Diploma OR final year of a Diploma OR completing a Graduate Certificate.

Skills:

- 3D animation
- Audio-Visual Production
- Coding Experience
- Copywriting and script writing
- Creative Writing
- Game Programming
- Music Composition
- Music Performance
- User Experience
- Visual Arts

Key Duties:

- Collaborate and work with external partners.
- Meet with internal stakeholders to verify expectations and deliverables.
- Ensure project scope is maintained and avoid potential scope creep.
- Regular check-ins with CCBI or Humber Galleries Project Lead, Creative Producer, and/or External Partner.
- Time management and ability to meet key milestones within a specific timeframe.
- Respect major project deadlines
- Strong project management skills
- Attention to detail and professionalism when meeting with external partners.
- Collaborate with teammates and resolve conflicts when dealing with project parameters
- Self-motivated and able to complete independent research
- Document progress and present individual contributions at team meetings
- Comfortable with online communications (including video calls, emails, and messages) and using a variety of software for file-sharing and task assignments.

Application Requirements:

- Cover Letter: Please explain why you are interested in this Fellowship. Identify your unique talents and describe how your practical, educational, and/or lived experiences will contribute to this opportunity.
- Support Materials: These are essential to your submission and should demonstrate the applicant's ability to carry out the project. Up to three (3) files total may be submitted. Files are accepted in the following formats: Images (jpeg, jpg, pdf, png, tif), Audio (MP3, MP4, WAV, WMA), Videos (link via Vimeo, YouTube, a personal website, etc.). Don't forget to include descriptions to go along with your work. All supporting documents should be submitted in one file upload.
- Domestic students must submit a Work Study Eligibility approval form.

Hours Per Week:	24
Salary/Compensation:	\$18.31
Position Start Date:	May 8, 2023
Position End Date:	August 11, 2023

Deadline to apply:
Sunday March 5, 2023 at 11:59PM
