

JOIN HUMBER'S PHD COMMUNITY OF PRACTICE

Research & Innovation has established a **Community of Practice (CoP) for PhD students, candidates or potential program applicants**. Our group meets monthly to celebrate successes, support research challenges, exchange helpful tips and offer encouragement. Joined by guests from varying research disciplines and Humber departments, our CoP is an opportunity to learn from each other.

Meetings will resume in Fall 2024!

This CoP is open to all Humber faculty and staff.

For any questions, please reach out to Emma Smith, PhD, Associate Dean, Research & Development, Research & Innovation at Emma.Smith@humber.ca.
