

#Due_2morrow – Take Action!

Sustainability... Due Tomorrow!

Date: Tuesday November 27th 2018

Time: 10am – 2pm

Location: Centre for Urban Ecology, The Arboretum. Humber College North Campus.

Semester three Hospitality Event Management students are proud to bring you...Sustainability... Due Tomorrow! The Centre for Urban Ecology will be hosting the event where we aim to connect faculty to the Humber Arboretum and provide resources to continue sustainability growth around campus.

Our mission is to integrate sustainability into Humber's classrooms. We want faculty to leave the event knowing how they can incorporate that into their teaching practices and their classrooms.

The Centre for Urban Ecology will have booths and activities set up for faculty to drop in and engage with throughout the event. Highlights include speaking to fellow faculty and staff from the Office of Sustainability about ways to incorporate sustainability into your courses, determining your own ecological footprint, feeding the chickadees and creating your own bamboo plant that you take home with you.

So, don't wait any longer and TAKE ACTION!
